## About Webinar

U.S.-China trade war and the covid-19 pandemic extremely hit the global economy, the world factory transfer force global industry transformation, But it also brings new opportunities for the reorganization of the supply chain.

To explore and expand cooperation opportunities between EU and Taiwan in Smart Manufacturing. The Webinar invites leading companies and experts in smart manufacturing from Taiwan and Europe to share with the audience the latest trends, cases of factory automation and digitalization, system integration and Smart Component.

At the same time, in order to upgrade business scale and expand its potential market, we are having a business matching platform for the audience to facilitate enterprises from EU and Taiwan that they can cooperate together to create win-win opportunities.

## Agenda

- 13:30 ● Registration
- 14:00 ● Opening Video
- 14:05 ● Opening Remarks
  - Industrial Development Bureau, MOEA (TBD)
  - European Economic and Trade Office (TBD)
  - Kai-Tai Song, Director, Taiwan Automation Intelligence and Robotics Association
- **【Session 1】 Development status of key components in smart factory automation production line**
- 14:15 ● AGV Solution for smart service and material transportation application
  - Dennis Chen, Assistant Vice President, TECO Electric & Machinery Co. Ltd.
- 14:35 ● Seamless integration and intelligent usage of sensor data as key for intelligent automation and end customer process improvement
  - Volker Gloeckle, Senior Vice President, SICK AG
- **【Session 2】 How to facilitate the field cooperation between system integration and machinery plant**
- 14:55 ● Open Standard Empowers Smart Manufacturing
  - Jenny Shern, General Manager, NexCOBOT
- 15:15 ● Improve Intelligent manufacturing through Virtual Twin on 3DEXPERIENCE platform
  - Samuel HSU, Industry Process Consultant Senior Manager, Dassault Systemes Taiwan
- **【Session 3】 Implement Industry 4.0, build up smart factory precisely**
- 15:35 ● Application of Smart Manufacturing and AI in the Aerospace Industry
  - Tian-Sheng Wu, Chief Technology Innovation Officer, Aerospace Industrial Development Corp.
- 15:55 ● Precision Planning on Robotics Automation to Enhance Solid Factory of the Future
  - HT Choong, Global Service Segment Manager – Electronics, ABB Ltd.
- 15:55 ● QA Session
  - Moderator
  - Kai-Tai Song, Director, Taiwan Automation Intelligence and Robotics Association
- 16:45 ● Wrap-up
